

For NHS trusts and IT teams

Zokwe Interviews is a UK careers and education website. Staff practise job interviews out loud with a three-person AI interview panel, including NHS Agenda for Change panels for bands 2 to 9, and get scored, constructive feedback. It is a web page in the browser: nothing to install.

DOMAINS TO ALLOW

zokwe-mock-interviews.com

www.zokwe-mock-interviews.com

Suggested category: **Education / Job Search & Careers**

1. Add the two domains above to your web filter / Microsoft Defender allow list (custom indicator: Allow).
2. If using web content categories, set the category to Education or Job Search & Careers.
3. Optional: allow the supporting hosts listed so images and payments load.

Supporting hosts: images.unsplash.com (photos on public pages) · static.prod-images.emergentagent.com (interview panel portraits) · checkout.stripe.com (only when buying credits) · auth.emergentagent.com (only for "Continue with Google" sign-in)

Why staff use it

- Rehearse band and promotion interviews with values-based NHS questions
- Build confidence, with kind, honest feedback and stronger model answers
- Supports workforce development, career progression and retention

Technical

- Runs in Edge, Chrome or Safari over HTTPS only (TLS, HSTS preload)
- No downloads, plug-ins, extensions or executables; standard port 443
- Microphone and camera are optional: browser asks permission, or staff type answers
- Works on trust devices and on personal phones

Information governance

- No patient information: terms forbid it, and staff speak only about their own experience
- Personal data is limited to name, email, practice answers and optional recordings
- Processed under UK GDPR; no selling of data, no advertising; deletion on request
- Payments handled by Stripe; Zokwe never stores card numbers

How an interview works

Staff choose their job and band. A panel (for NHS: Clinical Lead, HR & Workforce, Patient Representative) asks questions aloud and follows up. Staff answer by speaking or typing, then receive scores, strengths, improvements and a stronger model answer.

Cost to the trust

None to allow access. Each member of staff gets their first interview free; further practice uses low-cost credit packs bought by the individual. Team packs are available for managers and learning teams.
